

Journal of the Japan Institute of Energy

Volume 90 Number 4 April 2011

CONTENTS

Essay

..... S. MURAKI (299)

JIE Award (Technical Session)

Development of Plastic Bearing for High Efficiency Hydro-Generator

..... T. T. LONG, S. NAMBA, M. ISHII (300)

Special Articles: Advances in Concentrated Solar Power (CSP) and Solar Thermochemistry: Part II

(Reviews)

Solar Thermochemistry Research and Projects in Spain

..... A. VIDAL (306)

Solar Thermochemical Fuels: Research and Development in the United States

..... N. P. SIEGEL (314)

Concentrating Solar Thermal Energy in Australia: Facilities and Activities

..... R. McNAUGHTON, W. STEIN, T. RITCHIE (321)

R&D on Concentrated Solar Power (CSP) in Korea

..... T. SEO, Y. SHIN (328)

Solar Fuel Production by High-temperature Solar Heat

..... N. GOKON, T. KODAMA (339)

Research and Development of Solar Thermal Electric Power Systems in Japan

— Development of Nio Plant and Later Technology Development —

..... T. TANAKA (351)

Original Paper

Net Energy Analysis and Productivity Characteristics of Resource Crop Hemp

..... Y. AKAHOSHI, O. KITANI, Y. KANAZAWA, H. FUNAYAMA (357)

Exploring Critical Factors for Fermentative Hydrogen Production from Various Types of Lignocellulosic Biomass

..... I. PANAGIOTOPOULOS, R. BAKKER, T. DE VRIJE, E. VAN NIEL, E. KOUKIOS, P. CLAASSEN (363)

Biodiesel Production from Microalgae through Supercritical Carbon Dioxide Extraction

..... J-M. CHAR, J-K. WANG, T-J. CHOW, Q-C. CHIEN (369)

Lecture Note

Energy Conversion (3-4):

Geothermal Power Generation..... M. FUKUDA (374)

~~~~~  
Introduction of Research Group (Akita University, Sugawara Laboratory) ..... (380)

Entropy ..... (384) JIE Calendar ..... (385)

Bulletin Board ..... (385) From the Editors..... (387)

~~~~~
