

Annual Energy Reviews-2014

Edited by the Japan Institute of Energy

Table of Contents

I Current situation of energy supply and demand

- 1 Trend of energy supply and demand
 - 1.1 International energy trend R. IKARII, S. IWATA (The Institute of Energy Economics, Japan) (851)
 - 1.2 Domestic energy situation and policy R. IKARII, S. IWATA (The Institute of Energy Economics, Japan) (853)
- 2 Current situation of energy supply and demand
 - 2.1 Primary energy supply R. IKARII, S. IWATA (The Institute of Energy Economics, Japan) (856)
 - 2.2 Energy conversion and supply R. IKARII, S. IWATA (The Institute of Energy Economics, Japan) (857)
- 3 Trend in industries on energy supply and demand
 - 3.1 Midstream energy
 - 3.1.1 Oil refinery I. HAMABAYASHI (The Institute of Energy Economics, Japan) (857)
 - 3.1.2 Electricity S. KOSAKA (The Federation of Electric Power Companies of Japan) (862)
 - 3.1.3 City gas R. ISHINO (The Japan Gas Association) (862)
 - 3.1.4 Liquefied petroleum gas T. SAKANE (Japan LP Gas Association) (866)
 - 3.1.5 Coke Coke Engineering Research Division, The Japan Institute of Energy (868)
 - 3.2 Downstream energy consumption
 - 3.2.1 Petrochemical industry T. HIDA (Japan Petrochemical Industry Association) (871)
 - 3.2.2 Steel industry Y. MIYAZAKI (The Japan Iron and Steel Federation) (881)
 - 3.2.3 Transportation sector M. WATANABE (JX Nippon Oil & Energy Corporation) (885)
 - 3.2.4 Cement industry H. HOSOKAWA (Japan Cement Association) (886)
 - 3.2.5 Pulp and paper industry Y. SAKINA (Japan Paper Association) (891)

II R&D of technology for energy resource utilization

- 1 Petroleum
 - 1.1 Petroleum exploration M. IHARA (Japan Oil, Gas and Metals National Corporation) (895)
 - 1.2 Import and reservation of petroleum I. HAMABAYASHI (The Institute of Energy Economics, Japan) (897)
 - 1.3 Oil refinery M. INABA (The National Institute of Advanced Industrial Science and Technology) (901)
 - 1.4 Petrochemistry A. ISHIHARA (Mie University) (904)
 - 1.5 Lubricant oil M. KATO (Idemitsu Kosan Co.,Ltd.) (907)
 - 1.6 Petroleum-like resources .. S. SATO (The National Institute of Advanced Industrial Science and Technology) (909)
- 2 Coal
 - 2.1 Coal exploration S. TOMITA (Japan Coal Energy Center) (911)
 - 2.2 Structure and characteristics of coal
..... M. MORIMOTO (The National Institute of Advanced Industrial Science and Technology) (912)
 - 2.3 Processing and transportation of coal
 - 2.3.1 Coal cleaning M. ITO (Hokkaido University) (915)
 - 2.3.2 Coal pulverization C. MIZOGUCHI (BCB) (916)
 - 2.3.3 Coal slurry production and its transportation
 - 2.4 Gasification and pyrolysis of coal
..... H. YASUDA (The National Institute of Advanced Industrial Science and Technology) (917)
 - 2.5 Carbonization of coal S. NOMURA (Nippon Steel & Sumitomo Metal Corporation) (920)
 - 2.6 Aromatics and tar industry K. SUGIYAMA (The Japan Aromatic Industry Association, Inc.) (923)
 - 2.7 Carbon industry ... N. YOSHIKAWA (The National Institute of Advanced Industrial Science and Technology) (925)
 - 2.8 Utilization of coal ash Y. ISHIKAWA (Electric Power Development Co., Ltd.) (926)
- 3 Natural gas
 - 3.1 Natural gas exploration
 - 3.1.1 Domestic natural gas N. SASAKI (Japan Natural Gas Association) (931)
 - 3.1.2 Foreign natural gas M. MOTOMURA (Japan Oil, Gas and Metals National Corporation) (932)
 - 3.2 Trend in R&D on natural gas
 - 3.2.1 Exploration technology Y. SUEHIRO (Japan Oil, Gas and Metals National Corporation) (933)
 - 3.2.2 Transportation and storage technology H. WATANABE (JFE Engineering Corporation) (934)
K. TSUMURA (Mitsubishi Heavy Industries, Ltd.) (935)
T. MOMOSE (Chiyoda Corporation) (936)
 - 3.2.3 Utilization technology K. ARAKI (Tokyo Institute of Technology) (938)
 - 3.2.4 Conversion technology E. OKADA (MITSUBISHI GAS CHEMICAL COMPANY, INC.) (944)

4	Nuclear		
4.1	Introduction	K. MATSUI (The Institute of Applied Energy)	947
4.2	Nuclear resources	S. KUSUNO (The Institute of Applied Energy)	948
4.3	Nuclear power generation	S. KASAI (The Institute of Applied Energy)	950
4.4	Nuclear technology development after Fukushima	S. FUJII (The Institute of Applied Energy)	952
4.5	Nuclear fuel cycle and disposal of radioactive waste	H. RINDO (The Institute of Applied Energy)	953
5	Renewable energy		
5.1	Hydropower	T. SATO (Central Research Institute of Electric Power Industry)	958
5.2	Solar	K. SAKURAI (The National Institute of Advanced Industrial Science and Technology)	959
5.3	Geothermal	T. TOSHA (Japan Oil, Gas and Metals National Corporation)	960
5.4	Wind power	H. MATSUMIYA	962
5.5	Ocean	T. MIYAZAKI (Japan Agency for Marine-Earth Science and Technology)	966
5.6	Biomass	T. YAGISHITA (The National Institute of Advanced Industrial Science and Technology)	967
6	Waste resources	M. NAKI (Japan Environment Management Association for Industry)	968
7	Secondary energy		
7.1	Hydrogen	K. SAKATA (The Institute of Applied Energy)	971
7.2	Alcohol	S. GOTO (Japan Alcohol Corporation)	972
III R&D of technology for energy conversion			
1	Combustion theory		
1.1	Solid combustion	N. HASHIMOTO (Hokkaido University)	973
1.2	Liquid combustion	J. HAYASHI (Osaka University)	974
1.3	Gas combustion	Y. NAKAMURA (Toyohashi University of Technology)	975
2	Boilers		
2.1	Boilers for thermal power generation	S. KOKURYO (MITSUBISHI HITACHI POWER SYSTEMS,LTD.)	976
2.2	Industrial boilers	Y. TAKAHASHI (Japan Boiler Association)	979
2.3	Marine boilers	T. YUKI (Mitsubishi Heavy Industries Marine Machinery & Engine Co., Ltd.)	980
3	Industrial kiln		
3.1	Iron making furnace	K. TOMITA (Nippon Steel & Sumitomo Metal Corporation)	981
3.2	Incinerator	T. OTA (TAKUMA CO., LTD.)	983
4	Engines		
4.1	Engines for land vehicles	K. HIRONAKA (Niigata Power Systems Co.,Ltd.)	984
4.2	Marine engine	I. TANAKA (Mitsui Engineering & Shipbuilding Co., Ltd.)	985
4.3	Aircraft engine	S. YABUTA (IHI Corporation)	986
5	Thermal energy system		
5.1	Co-generation system	E. TAKEMASA (Advanced Cogeneration and Energy Utilization Center Japan)	987
5.2	Heat pump	T. YOSHIDA (Heat Pump & Thermal Storage Technology Center for Japan)	991
5.3	Heat storage system	T. YOSHIDA (Heat Pump & Thermal Storage Technology Center for Japan)	993
6	High-efficiency power generation		
6.1	Fuel cell		
6.1.1	phosphoric acid fuel cell	H. FUJIKI (The Japan Gas Association)	995
6.1.2	High temperature fuel cell	T. WATANABE (Central Research Institute of Electric Power Industry)	995
6.1.3	Polymer electrolyte fuel cell	T. IORI (The National Institute of Advanced Industrial Science and Technology)	998
6.2	Fluidized bed combustion	T. SHIMIZU (Niigata University)	999
6.3	Gas turbine power generation	T. YAMAMOTO (IHI Corporation)	1000
6.4	Ultra-supercritical pressure power generation	R. OGINO (TOSHIBA CORPORATION)	1001
6.5	Integrated gasification and combined cycle	S. HARA (Central Research Institute of Electric Power Industry)	1004
6.6	MHD power generation	Y. OKUNO (Tokyo Institute of Technology)	1006
6.7	Transportation and storage of electricity	Y. MITA (Central Research Institute of Electric Power Industry)	1006
IV Environment			
1	Trend in environmental problems		
1.1	Global environmental problems	S. KUTSUNA (The National Institute of Advanced Industrial Science and Technology)	1008
1.2	Domestic air-pollution	S. KUTSUNA (The National Institute of Advanced Industrial Science and Technology)	1010
2	Development of environmental conservation technology		
2.1	Green-house gas	M. UTAGAWA (The National Institute of Advanced Industrial Science and Technology)	1013
2.2	Sulfur oxides	Y. SUZUKI (The National Institute of Advanced Industrial Science and Technology)	1014
2.3	Nitrogen oxides	Y. SUZUKI (The National Institute of Advanced Industrial Science and Technology)	1015

2.4 Chemicals

···· M. TAKEUCHI, S. FUTAMURA (The National Institute of Advanced Industrial Science and Technology) ··· (1017)

V Miscellaneous

1 Standards related to energy

1.1 Japanese Industrial Standards ··········· H. YAGITA (Nippon Institute of Technology) ··· (1019)

1.2 International Organization for Standardization ··········· H. YAGITA (Nippon Institute of Technology) ··· (1020)

2 International conferences related to energy and environment ········· H. YAGITA (Nippon Institute of Technology) ··· (1024)

Abstract of the refereed papers

(Vol. 94, No. 8)

Special articles: Asian Conference on Biomass Science

Microbial Production of Xylitol from Oil Palm Empty Fruit Bunches Hydrolysate: The Effect of Glucose Concentration
·········· E. MARDAWATI, D. W. WIRA, MTAP KRESNOWAT, R. PURWADI, T. SETIADI ··· (1025)

Production of Low-Potassium Solid Fuel from Empty Fruit Bunches (EFB)
by Employing Hydrothermal Treatment and Water Washing Process
·········· A. NURDIAWATI, S. NOVIANTI, I. N. ZAINI, H. SUMIDA, K. YOSHIKAWA ··· (1026)

Equilibrium and Kinetic Studies of Cu(II), Ni(II) and Cd(II) Adsorption from Aqueous Solution
by Chemically Modified Corn Cob
·········· W. WICHAITA, C. SAMART, P. REUBROYCHAROEN, B. YOOSUK, S. KONGPARAKUL ··· (1027)

Extraction of Nanocellulose from Raw Apple Stem
·········· P. PHANTHONG, Y. MA, G. GUAN, A. ABUDULA ··· (1028)

Numerical Study on the Steam Reforming of Biomass Tar Using a Detailed Chemical Kinetic Model
···· N. THIMTHONG, S. APPARI, R. TANAKA, K. IWANAGA, T. NAMIOKA, S. KUDO, J. HAYASHI, K. NORINAGA ··· (1029)

Regional Diagnosis of Biomass Use in Suburban Village in Southern Vietnam
·········· F. ORITATE, Y. YUYAMA, M. NAKAMURA, M. YAMAOKA
P. D. NGUYEN, V. B. H. DANG, K. MOCHIDZUKI, A. SAKODA ··· (1030)

Investigation of Kinetic Parameters for Methanolysis of Para Rubber Seed Oil by CH₃/SO₃H-MCM41 Catalyst
·········· S. KARNJANAKOM, S. KONGPARAKUL, C. SAMART, P. REUBROYCHAROEN, G. GUAN ··· (1031)

Production of Furfural from Oil Palm Frond via Green Chemicals Using Supercritical Ethanol and Formic Acid
·········· N. MOHAMAD, T. L.-K. YONG ··· (1032)

Reduction of NO_x by Char under Condition for Carbonator of Calcium Looping CO₂ Capture Process
·········· T. SHIMIZU, Y. MATSUURA, A. YOSHIKAWA, Y. SHIMAZAKI, T. SHIMODA, H. KIM, L. LI ··· (1033)

(Vol. 94, No. 9)

Biomass Gasification and Liquid Fuel (BTL) Synthesis Using an Entrained-flow Type Gasifier in Japan
·········· T. OGI, M. NAKANISHI ··· (1034)

Power Smoothing Control Methods Using Moving Average and FIR Filters in Distributed Generation Systems
·········· Y. YOSHIDA, A. TAKAHASHI, J. IMAI, S. FUNABIKI ··· (1035)

Biomass Resource Mapping and Potential Evaluation in Hokkaido
·········· Y. FUKUDA, M. FUJII ··· (1036)

Biogas Production of Biologically and Chemically-pretreated Seaweed, *Ulva* spp.,
under Different Conditions: Freshwater and Thalassic
·········· G. P. B. MARQUEZ, H. TAKEUCHI, T. HASEGAWA ··· (1037)

Improvement of Fixed Bed Reaction System for the Production of the New Bio-diesel HiBD
·········· Y. MURAKAMI, H. TANI, K. ASAMI, K. FUJIMOTO ··· (1038)
