

C O N T E N T S

Essay

- Future Prospects of Biomass Energy S. YOKOYAMA (407)
From Petroleomics to Hydrocarbonomics S. SATO (408)

JIE Award (Academic Session)

- Contribution on Enzyme Utilization Technologies toward Efficient Saccharification of Cellulosic Biomass
for Production of Ethanol as Biofuel
..... M. SAMEJIMA (409)

JIE Award (Technical Session)

- Energy Recovery from Medical Waste
..... M. TAIRA, D. EBISUI, Y. YAMADA, K. KISHIDA, R. SAMESHIMA (416)
Development of Battery-Driven MEMS Natural Gas Sensor
..... A. NONAKA, H. OHNISHI (422)

Special Articles: Petroleomics

(Reviews)

- Technological System and Future Perspective of Petroleomics
..... T. NAKAMURA (427)
Detailed Composition and Structure Analysis
..... K. KATANO, T. SUZUKI, S. SATO (432)
Molecule-based Kinetic Modeling
..... K. TSUJI, H. FUJINAGA, K. HAGIWARA, Y. TAKAHASHI, M. MITANI (438)
Petro-Informatics
..... E. ZUSHI, R. TANAKA (444)
Asphaltene Aggregation Study in JPEC Petroleomics Project
..... M. MORIMOTO, R. TANAKA, S. ARAKI, H. YAMAMOTO
T. MORITA, H. KUMAGAI, S. SATO, T. TAKANOHASHI (451)
Hydrocarbonomics as a Future Development
..... R. TANAKA (457)

Special Articles: Onsite Bio-oil Production Utilizing Forest Residue

(Preface)

- Onsite Bio-oil Production Utilizing Forest Residue
..... S. HOSOKAI (460)

(Reviews)

- Trend of R&D in Bio-oil Production with Pyrolysis Technology
..... S. HOSOKAI, H. SHIMIZU, Y. HATANAKA (461)
Bio-oil Production in Forest Area
..... H. SHIMIZU, Y. HATANAKA, K. UENO (464)
Towards Production of Usable and Stable Pyrolysis Oil: Removal of Oxygen by Solid Catalysts
..... A. TAKAGAKI (468)
Evaluation of Pyrolysis Oil (Bio-oil) Performance
..... S. NISHIMURA (474)
Process and Cost Analysis of Bio-oil Production
..... S. HOSOKAI, Y. SUZUKI (482)

Special Articles: Current Situation and Future Prospect of Lignin Utilization for Biorefinery II

(Reviews)

| | | |
|---|---------------|-------|
| Molecular Mechanisms of Lignin Pyrolysis for Controlling the Product Selectivity | H. KAWAMOTO | (487) |
| Utilization of Klason Lignin | Y. MATSUSHITA | (495) |
| Conversion of Lignin to Novel Functional Materials | Y. URAKI | (501) |
| Market for Lignin Related Products | H. TANEDA | (508) |

Lecture Note

| | | |
|---|-----------------------|-------|
| Advanced Methane-Utilization Technology (3) Production and Utilization of Biogas from Sewage Sludge, Rice Straw and Grass | S. HIMENO, T. KOMATSU | (511) |
|---|-----------------------|-------|

Abstract of the refereed papers

(Vol. 96, No. 6)

| | | |
|--|---|-------|
| AE Measurement of Occurrences of Micro-explosion during Droplet Combustion of Fuel/Water Emulsions with Ethanol Additive | K. SUZUKI, H. YAMASAKI, O. IMAMURA, S. FURUKAWA, Y. OBATA | (518) |
| Fundamental Combustion Behaviors of Solid Industrial Wastes | T. ASAI, Y. UEKI, R. YOSHIE, I. NARUSE, J. TERASAKI, N. UENO | (519) |
| Using National and Regional Input-Output Tables for Analysis of Socio-Economic Impacts by Region of Energy Technology | S. HIENUKI, H. HONDO | (520) |
| Oxygenates Synthesis by Hydroformylation of 1-hexene over Co Nanoparticle Catalyst | N. YAMANE, M. TAN, N. TSUBAKI | (521) |
| Catalytic Degradation of Rapeseed (<i>Brassica napus</i>) Oil to a Biofuel Using MgO: An Optimization and Kinetic Study | W. UTTAMAPRAKROM, P. REUBROYCHAROEN, T. VITIDSANT, W. CHARUSIRI | (522) |
| Bioethanol Production from Waste Flying Powder (Tobiko), Generated in the Manufacturing Process of Konjac-derived Products | K. KOBAYASHI, E. SAITO, K. HIROKAMI, T. HIROI, A. ONODA | (523) |

(Vol. 96, No. 7)

| | | |
|--|--|-------|
| Wood Flow Chart for Japan: Material and Energy Utilization | T. FURUBAYASHI, Y. SUMITOMO, T. NAKATA | (524) |
| Eluted Soluble Silica Content in Rice Husk Charcoal Produced by Rice Husk Burner | E. ANKYU, Y. KUBOTA, R. NOGUCHI | (525) |
| N ₂ O Reduction and NO _x Adsorption in Carbonator of Calcium Looping CO ₂ Capture Process | T. SHIMIZU, T. SHIMODA, R. HOUSHITO, H. KATO, O. HARA, L. LI | (526) |
| An Analysis of Supply and Demand Strategy of Bioethanol Using an Agent-based Global Energy Model | H. YAMAMOTO | (527) |
| Influence of Co Precursor and Pt Additive on Catalytic Performance of Highly Active Co/SiO ₂ -based Fischer-Tropsch Synthesis Catalysts | N. YAMANE, K. SUZUKI, M. TAN, N. TSUBAKI | (528) |
